DAILY COURIER.

WEDNESDAY, .....JULY 21, 1858. Reading Matter on every page.

> The Louisville Journal assailed Mr. Batman i a scurrilous article, intimating that he had "fled ingloriously" from the British in the last war. Mr. Batman is a man who never turned his back on friend or foe. A man of a high and honorable nature, he passed some of the best years of his youth in the service of his country, and living men among us-gray-haired men-testify by their friendship and support, to the courage, enthusiasm, and fidelity of his services. Yet a scribbler, who never dared to face any foe unless backed by his gang can, by innuendo, try to hint away the character of such a man. This college graduate is very solicitous lest the election of Mr. Batmar will destroy all the colleges in the country. Whatever Mr. Batman's advantages or deficien cies may be, we are very certain that no better or truer friend of education can be found in this city. He will not be found advocating any scheme to appropriate money voted for the schools, to "plunder" fund, or any other iniquitous cheme. The Journal tries to leave the impression that Mr. Batman is an ignoramus. All who know him, and fortunately almost everybody does know and honor the old man, are well aware were not, and in May, 1856, the K. N. Council that there is not a more sagacious and clear headed man of business in Louisville. Irreproachable in all his transactions, attentive and indus trious, he has accumulated an honest competence by the sweat of his brow, not wrung from the unger and cold of the wretched, nor amassed as the lavish share of the gains of an unscrupulous clique. Although generous to a fault, his active industry has kept pace with his wants, and yet men who have discounted their paper with his ame as an accommodation inderser across the back of it, object to him that he cannot write. We do not allude to the editor by this remark, as we o not think he ever inspired Mr. Batman with onfidence enough for that, Mr. Batman has een guilty of but one fault-he voted for Humphrey Marshall. He will never do so any more .-The attempt to make the public think ill of Mr-Batman, has recoiled on the heads of the authors and the support of men of all parties has been freely tendered to him, and he will be elected over the jail clique candidate by an overwhelming ma-

That Know Nothing Meeting.

The jail clique organ was again wrathy yester day, because it says one of its meetings down own was disturbed by Democratic bullies, etc .-The truth of the matter is, there was no disturb ance except that caused by the presence of more Democrats than Know Nothings. The meeting was catled by the jail clique, and to draw a crowd, Hon. W. F. Bullock was announced as speaker. A number of Democrats went to hear Judge Bulock, but Judge Bullock did not appear. It is a pity that he was not present, for his honorable place was wretchedly filled by at least one jail lique blackguard.

The organ must not get mad because the Democrats appear in larger numbers than the Know Nothings at their meetings. There is no American party now. The organization has been disbanded, and the jail clique is all that remains of it as an organized body. The Americans are either with the Democrats or remaining quiet .-

They don't attend the jail clique meetings. The jail clique, through the columns of the Journal, announced a tremendous meeting, in an engine house, in one of the wards, a few evenings since. Nobody attended but three candidates, two watchmen, half a dozen private citizens, and one nigger. They were counted, and twelve were all at the meeting. The organ should not be surprised, therefore, at the superior numbers of the are not held in engine houses, etc., where the Democrats decline going on account of conscien ious scruples about burning the city's gas. The numbers of Democrats that attend these Know Nothing meetings ought to suggest one thing to the jail clique. This is, that the Democrats, by the aid of the true Americans, or the true Americans by the aid of the Democrats, have some thought of carrying the August election

The prospects are fair for a thorough cleaning out of the jail clique faction. To beat this faction is not to defeat the American party, but it is to clean out the jail clique and nothing more. The Americans, who are worthy of that name, are not with the jail clique, and they will not be with them during this contest. These are facts that we do know, and the clique and organ may make

what use of them they can. Hereditary Succession.

Three score and ten is the allotted period of natu al life, but what is that of official existence, is not told by the Psalmist, the organ, or the jail clique Two of the best offices in Jefferson county were held for half a century by one Family, and the pest of the two is still retained as an inheritance forever. Is this so? Are the people sovereigns

In the days of Charles I., of England, Dynastic rights were held by the royal party to be of divine ordainment in the King's Family. In the days of Charles I., of Jefferson, the Dynastic party, by permission of the jail clique, claim pereditary and perpetual succession for their chief's Family. The English Charles served for a time, and the people rose and took off his head. The Jefferson Charles has served for a term, and now the people are asking for his (official) head,

as not willing to serve and enrich his Family for ever. Let the likeness be made good. The Family, in its wish for office, is typified b Poe's Raven-"Forevermore." And when will it cease to hold office-"Nevermore. One term has already been filled by the present incumbentprosperous term-one which has made his fortune. Is not this enough? What would be?-When will this state of things end? The jail

clique say-"Nevermore." It is insufferable to think that the people must enrich one Family forever. They may be worthy, but is nobody else equally worthy? In the name of sense, is all the worth of a great city and county centered in one circle? That circle has grasped emoluments beyond all parallel and reason. Let us have a good and worthy man for county clerk, but let us have a change.

First Ward Meeting-Hon. James Guthrie. The Democratic Association of the First and econd Wards have called a meeting at Schweind's Hotel, on Jefferson, between Clay and Jackson streets, this evening, at 8 o'clock. Hon. James Guthrie has been prevailed upon to address the meeting. Let every Democrat in the two wards be present and hear him. He will make such a speech as ought to be heard by every one who feels an interest in this city. He will relate truths, as he did at the court house a few evening since, in which both Democrats and Know Nothings have an interest that ought not to be disregarded. Mr. Guthrie, like all good citizens, wants the full vote of the city polled at the August election. He does not think that the success of the jail clique ticket ought to be insisted upon by the Know Nothings to the disfranchisement of a single ci tizen, whether native or foreign. The practice of raising a row to intimidate foreigners, and to keep them from the polls, is all wrong. It is unworthy of any party that pretends to be decent. and honest, and law-abiding. Let all those who have ever been guilty of such outrages, or winked at them in others, go to hear Mr. Guthrie, and we venture to say he will make them ashamed of their conduct. Of course nothing that he or any one else can say or do, would shame some of the jail clique candidates, for their object is to get elected, and to be ashamed of nothing that will accomplish this end,

The jail is the joint property of the city and ounty. The State pays the guard or turnkeysthen, why does the city pay the jailor \$1,000 per year for the use of four rooms in her own house? It seems to us that if the city pays any sum for the exclusive use of a portion of the joint property of the city and county, she ought to pay the coun ty, and not the jailor. In old Bob Buckner's time (1854) she paid \$300

Bill Tomas \$1,000. What for? The Jail Clique is trying to put Bill Thom-

per year. It is worth no more now, yet she pays

The Jail Clique.

This honorable body has abandoned (unless as a ast resort) the idea of carrying the election by riolence, but have resorted to fraud, unless their defeat is almost certain without force, and some of their minions are now actively employed, every day and night, in endeavoring to alarm the naturalized citizens, so as to drive them from the city, or keep them from the polls on the day of ection. To a foreign born citizen who has a offee house or beer house license, they say, "now, ote with us, or do not vote at all, and your liense shall be renewed-vote against us, and it shall not." | To others they say, "you had better eave the city, or not go near the polls, or you will be badly beaten-and we are informed that it is probable they will succeed in some instances; but we say to all naturalized citizens, go to the pollsote your honest sentiments without fear-and ou may rely upon the protection, not of Demoerats only, but of all honest men-of every man who is worthy of the name of American. There re hosts of Americans who will protect every legal voter in the city, as readily, if not more so, than the Democrats will. The age of violence is oast. Public opinion will not sustain it, and wo o him or them, of whatever party, who attempt it.

passed an ordinance, giving the K. N. city attorney a tax fee of \$2 50 on each ordinance warrant for doing business without license, and for breachof the Sabbath; thereby nearly, if not quite, doubling his salary. This is another specimen of K. N. economy and love for the people.

City Attorney.

The city attorney receives an annual salary

rom the city treasury of \$700. Up to 1856 as

good, if not better, city attorneys than the present

had been satisfied with this: but Know Nothings

by a direct course. No more does the truth, O friend; but winding around thy stupidities, and rubbing up ugainst thy prejudices, it reaches thee gently, and then, perhaps, scratches.—Exchange, If the truth should ever "rub up" against cer tain Locofoco editors we know of, it would have o do some awful "hard scratching" before it If truth ever rubbed up against the editor of the Journal, she must indeed have gotten awfully

scratched. In fact, her position was very much ike that of a "cat in hell without claws." The Jail Clique organ is afraid if Batman -the old soldier-is elected, "colleges, academies, and schools will be swept from the face of the country, and Vandalism will bear sway throughout the land." By this the public will see that his is a more important election than they

had supposed. The Philadelphia Press says that the editor o he Washington Union would sell his soul for a ness of potage. If he did, he would cheat the otage vender outrageously.—Lou. Journal. The editor of the Journal put his soul up to the owest bidder long ago. The auctioneers who nocked it down to the devil, were bad spirits.

If the Mrs. Blount whose ename is just now u everybody's mouth doesn't properly respect terself or her husband it can't be denied that she hows every disposition to Riviere her daughter.— If the perpetrator of this atrocious attempt

oesn't prove that he is a punster, he does prove is ignorance of French. The Jail Clique organ claims to write with double barrelled pen. He shoots from his Know Nothing barrel mustard seed, and reserves for his Black Republican barrel his buck shot. He is

The Telegraph Decision. Camp, appelant, Appeal from the Louisville vs.
uion Telegraph, appellee. Louisville Chancery Court. Union Telegraph, appellee. ) Chancery Court.
This is an action brought against the Union Telegraph
Company for failing to transmit correctly a message
rom the appellant, at Louisville, Ky., to David Gibson
t Co., at Cincinnati, Ohio. The appellant alledged that
he appellee undertook, for compensation, to transmit
rom Louisville to David Gibson & Co., of Cincinnati, to
roposition to purchase 200 barrels of whisky at fiftee
ents per gallon, and that instead of transmitting it to
and fifteen cents per gallon, it was made to read sixteer
ents per gallon, as being offered by appellant. He also

messages were received for transmission, which, so far sa they are applicable to the present case, are as follows:

"The public are notified that in order to guard against mistakes in the transmission of messages, every message ought to be repeated by being sent back from the station at which it is to be received to the station from which it is originally sent. Half the usual price for transmission will be charged for repeating the message. This Company will not be responsible for mistakes or delays in the transmission or delivery of unrepeated messages from whatever cause they may arise."

The answer alledges that the appellant had notice of the above terms and conditions, and sent the message subject to them, not requiring the message to be repeated. No allegation appeared in the plaintiff's petition that the mistake was the result of negligence, incompetency, or want of proper skill on the part of the proper agents employed by the company as operators, but the failure of the company to contract to transmit the message correctly, is alone relied upen as the foundation of the plaintiff's right to recovery. The proof shows that, it was impracticable to transmit messages with safety and accuracy, at all times, from the very nature of the medium through which they are made, but are subject not only to delays and occasional interruptions, but also to inaccuracies in words and expressions, and it was, therefore, reasonably presumed that the failure to deliver this message was from the above result, to which such communications are liable, even when the utmost care and skill are exercised. The question, then, is, was the company bound to transmit the message correctly at all events? Or, must they, to molify their liability, give public notice of the terms and conditions on which it will alone be bound for mistakes in the transmission of messages. It is contended that the responsibility of the company is not liable to message for importance, they should be repeated; and he is also notified that the company mistake th

As to the question whether the plaintiff is liable for he whisky at 15 cents, or 16 cents per gallon, the court does not deem it necessary to decide in the present case. The judgment of the Chancellor dismissing the plaintiff's petition, is, therefore, affirmed.

PIRTLE & BALLARD, for Appellee. In Detroit there are serious complaints of short weight in flour, among commission mer-

chants. The Advertiser, of the 9th, says:

Quite a number of account sales have lately been received by them from the Eastern markets, showing serious shortages. One particular lot, after being inspected and filled up, fell short some forty barrels. The extra expense to the shippers, of filling up, etc., is about 10c@12½c per bbl, besides all the loss in weight; and millers will readily understand that commission merchants can not stand this loss. Eastern dealers are also very strict upon this point, and hold Western shippers more or less responsible for the fraud, or mistake, or whatever it may be called. It has probably, however, been more the result of carelessness than anything else. One fruitful source of mischief, in this particular, is the practice, which some packers have, of weighing a few barrels in a lot, and then taring the rest accordingly. If the tare of a barrel is thus marked from one to five pounds too little, the barrel on being inspected, is just so much short, and the shipper must stand the loss in weight, besides the other necessary expenses of filling up, loss on freight, insurance, etc., which, upon a lot of 1,000 barrels, would reach no mean sum. chants. The Advertiser, of the 9th, says:

POLICE COURT. GEO. W. JOHNSTON, JUDGE.

TURSDAY, July 20. THE HOUSES OF PALMER AND GERSTH.—Mrs. Cath-rine Palmer was in arrest for disorderly conduct erine raimer was in arrest for disorderly conduct and assaulting Abraham Gersth. Some woman, it seems, had thrown a bucket of water on the daughter of Gersth, and he, mistaking Mrs. Palmer for the female, called her an Irish b—h. The first chance she got she pitched into him, on the street, and struck him, according to his story, lifteen or twenty licks. He had an eye clouded the property was indicated the proof that in mourning, which was indisputable proof that it had run against a fist or something else. He made no resistance. The officer who arrested her said she used profane language, and was the most disorderly person he had ever arrested. Assault on John Quinlan.—Nearly two hours the precious time of the court was lost in exunining the cases of Jerry Cochran, Steve Sheeman, and Mary Sheehan, charged with assaulting and stabbing John Quinlan. The men are brothers-in-law and are at daggers' points, because he Sheehans want to persuade their sister, the wife of Quinlan, to leave him. So on Saturday ight Timothy Sheehan, who has not been caught and Steven walked into Quinlan, and attempted to whip him. During the fight, Quinlan got several punches near the heart with a fork, but who stuck in him did not appear, as he was not in court to testify. After the fight old Jerry Cochran ame out of the house in his shirt tail, and knockded John on the head with a big stick. The injured man is still in bed from his bruises and wounds, but is not dangerously hurt. The court held Steve Sheehan to bail in \$200, and security to answer an assault, and discharged Cochran and

lary Sheehan.

Robbery.—Wm. Lourniare was presented to the court, charged with robbing the boarding house of Antone Ehret, of money, three watches, and a preast pin. The theft took place on Wednesday. The watches, chains, and breast pin were identified by Mr. Ehret. The value of the property, besides the money, is estimated at \$250, or more. Mr. Ehret testified that he lost \$35, in bills, and Mr. Ehret testined that he lost \$55, in bills, and six dollars in silver. Some of the money found on accused was identified as his property. There was \$65, in gold, belonging to boarders, also stolen from Ehret, of which there were three \$20 gold ieces. Three pieces of gold of this denomination, was found on the prisoner. A hat, belong ing to a boarder, was found on the head of Lour-niare. The property was stolen from Ehret's bed room. Lourniare was a boarder in the house.— Mrs. Ehret discovered the loss, and the fellow left uddenly a few minutes previously. Officer Ham-nond stated to the court that he found the articles question on the person of the prisoner in Cin nati, where he had followed him cinnatt, where he had followed him. Revolting Case in New York. Late on Tuesday night, Sergeant Berney, with eight of the Mayor's police, and eighteen of the Fourth precinct police, made a sudden descent upon a notorious den of infamy kept by Pete Dawson and wife, No. 58 Cherry street, arresting the keep-ers, bar-tenders, musicians, female inmates, and visitors—in all 33 men and 15 women. The girls arrested expose a system of slavery known but to very few in the city. On being taken to the squad-room of the Mayor's police at the City Hall, yesday morning, they made affidavits stating that they had, after being induced to go to Dawson's dance house, been deprived of all liberty; were not allowed to leave the premises, the bar-tenders at the entrance of the brothel keeping a constant watchover them, preventing them from even going to the door steps; that when they attempted to leave, their apartments, and always having witnesses ready to prove they had possession of the evi-dences of their guilt. Friday night, the train which left Cincinnati at 4½ P. M., under charge of Conductor Newhall, came very near being thrown over a precipitous embankment by the contrivance of some villainous person. When six miles this side of Xenia, the train struck a large cross-tie laid across the track, evidently for the purpose of overthrowing it. Happily, and by a marvel, the piece of timber was of exactly such dimensions as to wedge in under the cow-catcher, and be carried along a considerable distance in that position upon the rails. Had it been smaller, it would have passed under the cow-catcher, by the jump of the engine, and coming to the wheels, have capsized the train. Had it been larger, in all probability one end would have swung round, and caused an upset. But for the providential frustration of this diabolical attempt, many persons would have been killed and maimed.

The Democratic Meeting Last Night.

The meeting of the Democracy at the corner of Jefferson and Eleventh streets, last night, was truly encouraging. The old and the young, the rich and the poor, the laborer and the man of leisure were all there in great and enthusiastic num bers. There were more than a thousand persons present, and we venture to say that such a ward neeting has not been held in Louisville since Sam became thoroughly established here. Professor James Sneed and Hon Geo Alfred

Caldwell, the orators announced for the meeting. made speeches worthy of the men and of the occasion. Professor Speed was never happier before a jury or a political audience, and Col. Caldwell nade a speech long to be remembered by those who heard it. They denounced no man nor any party, but poured forth thoughts that breathed and words that burned upon the great principles of Democracy. The allusion of Professor Speed to the grandeur of the Democratic principles, was only equalled by Col. Caldwell's sketch of the glorious acquisitions of our country in the gradual development of those principles, from the origin of our government to the present time. They were speeches that ought to have been heard by every citizen of Louisville, as was evinced by the oud, and long, and frequent applause, which showed that they had sunk deep into every hearer's heart.

Several of the Democratic candidates wer present, and addressed the meeting also. Wm. A. Ellis, Hon. John Joves, Dr. Mat. Pyles, and Dr. Alex. Forsyth, made short but excellent speeches. The Democracy responded to their speeches with such shouts as to cheer them with bright hopes of being elected in August. Richard Phillips, an independant candidate for

They are chivalrous and honorable gentlemen, without reproach, and may alike scorn the assault, the party who makes

it, and the channel through which it is made. J. B. McIlvain & Son have just received samples of the several brands of the best quality of flour, inspected under the standard as agreed on by the Board of Trade, of St. Louis. Inspectors, millers, and dealers, are requested to call and examine the different brands, and let us endeavor to fix a standard for the St. Louis inspec tion, and see if we cannot have the flour from this place take a favorable stand with the St. Louis flour, as we have better wheat than can be raised in the far west, and it is only necessary that millers will take this matter in hand to accomplish the object desired.

RESCUED .- On the last trip of the Superior from Louisville, the boat stopped at Utica to land some passengers, among whom was a lady put in the especial charge of Charley Topping, chief clerk of the boat. A couple of planks were thrown into the river, and Charley attempted to do the agreeable by taking the lady by the hand and leading her on shore. Unfortunately one of the planks tilted and both were thrown into the river. The lady was very much frightened, but Charley succeeded in getting her on shore, both very wet and very muddy.

To Consumptive Invalids, and all those who suffer with dsseases of the Throat and Lungs-We are requested to say, that owing to the number of invalids who have written to Dr. Flower, and are on their way to this city in order to consult him, that Dr. F. has returned to Louisville, Kv., and will remain at his office, on the corner of Centre and Green, during the summer months. He is desirous of establishing a permanent office in this city. His peculiar theory is rapidly gaining for him a successful practice. He offers as usual, consultations free to all.

MOZART HALL ENTERTAINMENTS .- This beautiful hall was well filled again last night, and the audience was highly pleased with the performance. To-night will be performed the thrilling play of Agnes de Vere, Miss Deering sustaining the prinipal character. DISTINGUISHED ARRIVAL .- One of the speaker at the Democratic meeting last night announced that Mr. Going-to-vote had recently arrived in our city. The speaker saw the distinguished stranger in the crowd before him and called for three cheers for him. And then the Democracy velled as they have not hallooed since the advent of Sam. There was meaning in those glorious and sky-rending cheers.

Effect on the California Mines.

The San Francisco Morning Call gives the following estimate of the effects upon the California mines of these newly discovered diggings:

The effect of the Frazer river excitement, quent withdrawal of large numbers of miners from the state has been to materially lessen the amount of gold dust received from the interior A day or two since we gave the receipts of the first lifteen days in June as compared with a cor-responding poriod in May, which showed a falling off equal to four hundred thousand dollars. We have the daily deposits of the mine for the last week, showing a falling off of compared with the same week of last year.

From these figures it would appear that the re-ceipts of treasure from the interior as deposited at the mint, have fallen off about two hundred thousand dollars per week. It is supposed that since the withdrawal of the bullion fund not more than one-half the treasure reaching this city finds its way to the mint, the balance going to the private assay offices, where depositors receive returns in from one to two days. Should the falling off in the private establishments be equal to that o the government institutions, we would have as a result of the Frazer river excitement, a decline in the yield from our mines equal to four hundred thousand dollars per week, or at the rate of \$20,-

800,000 a year.

The general impression is that for months to come the receipts from the California mines will constantly grow smaller, and, not unlikely, the yield for the coming year will show a falling off of one-half. It has been on the semi-monthly shipments of treasure that our merchants have relied for the means to meet their obligations at ter from which relief can be expected is the newly ure received from that quarter will necessarily be inconsiderable. Thus viewed the prospects of our merchants are anything but cheering.

The De Riviere Affair.

The principal topic of conversation last evening was the Riviere affair, in New York, the full particulars of which were published in our evening paper. While conversing with a friend who was day. John P. Thompson is a cousin of Hon. John with Col. Blount while he was in this city, searching for the runaways, he related to us a piece of information regarding the gallant leader of the "forlorn hope," which was not altogether new to us, and about which we had privately expressed some doubts. He says that in a conversation with Colonel Blount, at the St. Charles Hotel, the Colonel remarked to him that De Riviere wore nail, and related the manner in which he had dis

> He said that immediately after Riviere had been shot by Captain Maury in the duel at Mobile, the physician after examining the dangerous wound in the face, wished to examine where the first ball had struck in his side on the half dollar in the vest pocket. To this latter proposal Riviere stren aously objected and would allow no one to come ear him until after he was placed in bed at Col-nel Blount's residence. He then requested that Irs. Blount should examine it. Mrs. Blount stated to her husband that upon examining she dis vered that the "gallant captain" wore a steel irt, which covered the breast and abdomen completely, fastening up the sides, and that underneath this shirt he wore a shirt of buckskin.
>
> This accounts for the great coolness of the Zouave upon this occasion—chasing butterflies and plucking wild flowers, and informing his friends that he would shoot the "fellow" and be back to dinner. Maury, no doubt, suspected the rascal, for his second shot was simed at the head and for his second shot was aimed at the head and came near finishing him. It is a great pity he did not; it would have saved a hitherto highly respectable family from disgrace.—N. O. Delta.

LABOR-SAVING MACHINE.—The most important to the public generally is a Washing Machine, manufactured by R. D. Porter & Co., of this city. These machines have been tried by a large number of the control ber of our best citizens, and have given satisfac-tion to every one who has used them. The ma-chines are cheap, simple, durable, and not liable o get out of order. A child of ten years can unlestand and work one of them. It is a great sav-ing of time and labor; it does not rub off the but tons, or injure the finest fabric in washing; it will wash anything from a pocket handkerchief to the largest size quilt, and do the work quick, and do it well. In proof of the above, we can refer to a large number of highly respectable persons who now have the machine in use, and, in addition to this, give any one the privilege of trying the machine before purchasing.

"Your Bitters give general satisfaction. I know their virtues, and have the first case yet to hear of where they do not give entire satisfaction. I could get you numerous certificates were it necessary, but in this community their virtues are fully established. I am positive I sell more of them than is sold of any three patent medicines in this county. In my own case I have received more benefit from them in six months than I have received frem the regular physicians in five years. I can, therefore, conscientiously recommend them, and do say, I would not be without them in my family for any amount."

THIS invention is the only one having for its object the reduction of price and the real utility necessary to I place it in every family in the Union. There is no doubt that this is one of the most useful and valuable inventions ever brought before the public. It is an accompaniment to the work-basket. Instead of, as heretofore, with other machines, a companion to the workshop.

The Watson Machine uses the thread from one ordinary spool without the trouble of rewinding, and is adapted to the sewing of Muslin, Linen, Silk or Woolen Goods. They are strong, durable, and not liable to get out of order; and will do the work of a week in a single day.

Final Sale of Lots IN KENTUCKY CITY!

On Monday, 27th of September, 1858, YOUNG CITY.

is located on the east bank of the Mississippi river, twenty miles below the mouth of the Ohio river, at the first eligible highland, and in point of fact, being the mouth of the Ohio river; surrounded by a high, healthy, and fertile country, rapidly growing in will had population, with a salubrious climate, generou, it read and enlightened society. There wanted but all arther feature to make this the most commanding point on the "great Father of Waters"—this want was an uninterrupted and general outlet to the interior, so as to accommodate the interchange of commodities. That want is now fully met by the established system of

which has fixed Kentucky City as the center of a network of railroads stretching out and affording connections in all directions with the interior and with the cities and lakes of the North and East, and ramifying throughout the South and West.

That the public may not be led off by suspicions that this is a mere city upon paper, we request you to enquire—to come and see for yourselves.

See the Map—Kentucky City is the northern terminus of the Great Mobile and Ohio Railroad—460 miles long. See also our railroad connection by Union City and along the Nashville and Northwestern Railroad via Paris and Clarksville to Nashville, 170 miles. Also, by Kenton and along the Memphis and Ohio Road to Memphis, about 160 miles. Also via Jackson, Tenn., Holly Springs, Canton and Jackson, Miss., to New Orleans, 500 miles. Also via Corinth, thence along the Memphis and Charleston Railroad to Tuscumbia, Huntsville, Chattanooga, Knoxville and the East, and with Atlanta and Savannah, Georgia. Also by the Fulton and Texas Railroad via RAILROADS,

cific Ocean.

Also, by the Iron Mountain Railroad to St. Louis, 150 miles. Also by the STEAM FERRY PACKETS plying to and fro with Cairo and the Illinois Central Railroad to Chicago and the whole northwest. come and see and investigate in person, will be convinced that the extraordinary commercial advantages
and facilities of railroad and steamboat transportation
possessed by Kentucky City secures to this point requisites for manufacturing and commercial purposes, which
must, of necessity, cause it speedily to become the great
intermediate city between the NORTH and the SOUTH,
at which the productions and manufactures of each section will be concentrated for sale, or to be exchanged for
those of the other.

The Hon. Post-Master General, in a recent report,
says: "No man can look at the map of this country

says: "No man can look at the map of this country without his eye finally resting on the mouth of the Ohio as the center of population and commerce of the United States."

The sale is to be made without reserve and in good faith, and there will always be a reliable gentleman on the ground whose pleasure and duty it will be to give all needful information, and answer all written or oral interrogatories. Then let no one permit himself to be led off by rumor, when the facts are so accessible to all. Sale to commence Monday, September 27th, 1858, and continue until all the Lots, numbering upwards of four hundred, are sold. TERMS OF SALE: From ten to twenty-five per cent, cash in hand, dependent upon the amount purchased; for the residue, seredit of one and two years, with interest.

Such as Indigestion, Acidlty of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on scrictly scientific principles after the manner of the celebrated Holland Professor, Borhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

BOWLING GREEN, M'Lane, Bowling Green THE RIVER was still rising yesterday, with ful ly 6 feet water in the canal by the mark—equal to 7 feet water—a good stage for this season of the year. During the previous 24 hours the river had risen 4 inches at the head of the falls, and fully 1 foot at Portland. On the falls there are fully 4 feet water in the pass. The weather continues clear and pleasant.

The present rise will make a good stage of water along the lower Ohio, and our boats can now go out fully laden, from port. The Diana yesterday was raising almost a full load at Portland, her cargo consisting chiefly of bagging, rope, pork, tobacco, etc. In consequence of the rush of freight for the South, Capt. Sturgeon has deferred the departure of the Diana to New Orleans until this evening. She starts at 5 o'clock from Portland, and in addition to a full cargo, will have a goodly number of passengers. The Diana is not only one of the most complete boats in the trade, but one of the most perfect and complete in her management and outfit of any that ever traveled the western waters. Capt. Sturgeon, her commander, is well known for his skill and courtesy, while the clerks. essrs. O. L. Smith and J. W. Forsee, are always attentive and correct.

RISE IN THE MISSOURI AND MISSISSIPPI.—The St. Louis Republican, of Monday, says: For several days we have had reports of heavy rains east, west and north, and a rise here was anticipated. The river was rising slightly on Saturday, and yesterday morning, on going to the bank of the river, we were astonished to find that a swell of over a foot had occurred since six occloses on the present a foot had occurred. tonished to find that a swell of over a foot had occurred since six o'clock on the previous evening, and that nu-merous piles of freight were partially submerged in the river. It continued swelling all day at the rate of on-inch per hour, and when we last visited the landing many piles of sacks were but a few inches from the mar

in of the water.

The Silver Heers, from St. Joseph, reports extraorditary rains there and elsewhere. The river was rising at
t. Joseph when she left, and when she got down to the
faw, that stream was found to be higher than witnessed
or a long time. A warehouse at Wyandotte was parlaily submerged. At Kansas City the officers of the
locat were informed that the Missouri was two feet higher
ban at any other time this season. one were informed that the Missouri was two feet higher han at any other time this season.

The Henry Clay arrived from St Paul. The river has of been very high there this season, and was falling hen the Clay left. There was a good navigable stage of ater to Keokuk. The Desmoines was pretty well up, it not so high as Salt river, which was booming. Bew Louisiana, the Mississippi was bank full, and overwed at some low places. The Illinois is falling at the per, but rising at the lower end.

FROM PITTSBURG.—The Pittsburgh Journal, of The hulls of the steamers Arctic and Great West sunk where the boats were burned, and now lie in 12 feet of water. We have been unable to obtain full information in relation to the amount of insurance, but we learn that the Arctic had \$2.500 in the Eureka Insurance Company, and \$3,000 in the Clitzens'; also, that Mr. R. N. Hays, who owns a large interest, had \$3,000 in two other offices. Capt. R. C. Gray, who is now in St. Paul, owned one-eighth of the Arctic, but we do not know whether he is insured. Mr. George Black owned one-eighth and is not insured. The Great West, we believe, was fully insured. The loss of the Marine Railway Company in lumber is between \$1,500 and \$2,000.

Business was tolerably active on the wharf yesterday evening, and a number of boats were receiving freight quite freely, though the landing was nearly deserted in the morning. There is now a sufficient stage of water to allow of boats going out, loaded to their fullest capacity, but it is falling steadily, and in the course of two or three days will probably be down to low water mark again.

A FREE FIGHT—ONE MAN KILLED.—The officers

A FREE FIGHT-ONE MAN KILLED. - The officer A FREE FIGHT—ONE MAN KILLEB.—The officers of the steamer Linda, at New Orleans, from Jefferson, Texas, reports that a free fight took place on the steamer Bloomer, then lying at Jefferson, in which one of the crew was killed. He was knocked or thrown overboard, but the body was shortly afterwards recovered, and his skull wa discovered to be badly broken. The mate and a number of the crew had been arrested, and the natter was being investigated before a justice of he peace when the Linda left.

THE SOUTHERNER-MAIL PACKET FOR MEMPHIS This evening, the unrivalled Southerner, the fleet low pressure, in charge of our gallant friend Triplett, is the mail and passenger packet for Mem phis. She starts at 5 o'clock, from Portland, pro phis. She starts at 5 o'clock, from Portland, providing choice fare for passengers, and making thirty-two mail landings on the Ohio; and, of course, all passengers for the mail landings will take the mail boat. Drowned.—On the last trip a deck hand, while asleep on the Highflyer, fell overboard at Paducah, with several bags of cotton yarns, and was Wm. Evans, aged 18 years, son of the river reporter of the Pittsburgh Journal, was drowned

while bathing. ALABAMA AND WARRIOR RIVERS .- The Mobile Pribune, of the 18th inst., says:

By the arrival of the steamer Duke from Montgomery, resterday afternoon, we learn that there was about teneet water in the river at that place, and that the river vas rising all the way down. The steamer Marengo, rrived from Tuscaloosa, reports five feet water in the Warrior, and that the river is still rising.

n the Monongahela river on Friday evening last,

The fast steamer Southerner, commanded by Capt. Triplett-" gentleman George"-arrived ast evening from Memphis. We thank our friend pention that Triplett and Archer are the principal officers, to assure travelers of a pleasant voyage. FOR St. Louis.-The gallant Highflyer, with Capt. Wright, having been detained, takes her leparture to St. Louis to-day, at noon. She starts from Portland, and will take all the passengers going west, and all who travel on her will find Sam. Halliday a model clerk and clever man. A SNAG.-A formidable snag has lodged at the

head of the middle chute, and rears its head high The Fred Tron arrived yesterday from teokuk, and left for Cincinnati.

Testimony of II. N. Sperry, who was abandoned so incurable and given up to die.

Da. J. Williams—Dear Sir: For fifteen years previous to 1854, I suffered so much from Dyspepsia, that I became completely prostrated, both in mind and body, and at length became so weakened I could not attend to my business, and was sinking into a decline, and it was believed I never could recover; the best medical aid was procured for me, and every means recorded to without procured for me, and every means resorted to without any relief, till I was advised to use your "Elixir," and

any react, in I was advised to use your "maxir," and from the time I began taking it I gradually improved, till I was completely restored to health. The dreadful suffer-ing I indured from Dyspepsia I cannot describe; but I am confident that without the use of your "Elixir," I should be in my grave. I assert that I solemnly believe your "Elixir" has saved me from an early death. I connue now in the enjoyment of excellent he June 6th, 1857. No. 1104 N.
